7. TO RECEIVE ANY REPORTS FROM ANY OUTSIDE BODIES

LCC Cllr Bowkett reported the following:

- A bid for more charging points across the county has been made to government. The bid for £1 million would allow 101 extra standard charging points and 8 rapid charging points to be spread across the county of which Skegness is one of the chosen places. The charging points will be placed in residential areas and car parks to allow for many people to take advantage and be able to use electric cars more easily.
- Lincolnshire Police are making £20,000 available to purchase 20 high tech night vision cameras to be used in rural areas to aid reduce rural crime.
- Lincolnshire Police have launched a Roads Policing Unit, a dedicated team of officers proactively patrolling the roads to try and promote road safety and to target criminals who use the network to commit crime. There are two teams across the County one in Grantham with the latest to be set up in Louth.
- The collection amnesty of unwanted medical equipment has been extended to the whole of the County. Therefore, any of our waste/recycling sites will take equipment to be refurbished/cleaned so it can be reused. Large items can be collected by calling 0345 1212032. In the first few weeks over a £1000 of goods in Lincoln were able to be reused again.
- The Newly formed integrated care partnership and care board commenced on the 1st July, this sees a new way of working for the health service, this has replaced the CCGs and it should mean greater integrated working across the system including our doctor practices. The reorganisation is much needed, and all aspects of the health service will be looked at and reviewed to hopefully bring a better and easier system to access for our residents.

ELDC Cllr Taylor reported the following:

- Spilsby's Sessions House has been included in the Levelling Up Bid. If the bid is successful, Spilsby Sessions House will be transformed into an outstanding multi-purpose facility, bringing all its many rooms, spaces and even prison cells into use.
- The east side of East Midlands are planning to try and create an alternative public transport system. This was previously considered but at the time was unsuccessful, though is now being reconsidered in the future as being that something is required in the rural areas.
